Suggested model texts:

The most beautiful memory from my childhood

The most beautiful memory from my childhood took place when I was a child. It was a beautiful summer afternoon and I was at my grandparents' house. I was seven years old. It was a hot and sunny day. My cousins and I were playing in the garden while my grandmother was preparing lemonade in the kitchen. My grandfather was sitting under a big tree, watching us and laughing. Suddenly, he proposed to create a wooden house for their dog. We helped him and drank lemonade. At the end of the afternoon, we finished the house. I felt very happy because it was beautiful.

Winning the lottery

If I won the lottery, I would do many things. First, I would help my family. I would pay for a new house for my parents and I'd buy a car for my brother. Then, I would travel to different countries in Europe – I love European cities. I would also save some money in the bank for the future. I would not stop studying but my life would completely change because I could finish university in a more relaxed way and I could then look for a job that I really enjoy. Finally, I would give some money to a charity to help children.

A fantastic weekend

In my opinion a fantastic weekend is an XL one with good weather, fun activities and people who I love. A good example of a fantastic weekend could be going to Potrerillos with my friends for 3 days and 2 nights because I love visiting new places. We would probably walk a lot there, eat fast food, make a barbecue and rent a bike or go rafting. However, this is not a typical weekend in my life. For example, last Saturday I stayed at home and watched TV. The weather was rainy. On Sunday I went out to the park for a few hours but I spent many hours in front of my notes, reading and studying for exams. I think a fantastic weekend is more exciting than my last weekend because you go out. It is also more exciting because you spend time with friends, not alone. Finally, it is more relaxing because you don't spend time studying.
