# EQUILIBRIO ASIMÉTRICO

# EQUILIBRIO ASIMÉTRICO

#### LE BELVÉDÈRE - FOLIE

- Un pavillon cylindrique abritant des équipements techniques pour les égouts.
- Le pavillon offre une terrasse praticable public sur son toit.
- Le pavillon donne accès à la tour d'escaliers souterrain.

#### THE BELVEDERE - FOLLY

- A cylindrical pavilion housing technical equipment for the municipal sewer system.
- The pavilion roof has a public terrace accessible by stair.
- The pavilion provides access to an underground stair tower.

#### LA TOUR SOUTERRAINE

- Une infrastructure majeure de 20 mètres de profondeur en forme cylindrique qui donne accès par escalier au collecteur.

#### THE UNDERGROUND TOWER

- More than 20 metres in depth, this cylindrical infrastructure provides stair access to a major sewer line.

#### L'ÉGOUT

- Le collecteur Saint-Jacques est une des plus importantes infrastructures d'assainissement et de contrôle des eaux à Montréal.

#### THE SEWER

- The St-Jacques Collector is one of Montreal's most important water control infrastructures.

#### LES PASSAGES

- Un espace de détente relie les coins nord-est et sud-ouest du square.
- Une deuxième passage de dimensions restreint relie les coins sud-est et nord-ouest de square.

#### THE PASSAGES

- The north-east and south-west corners of the square are linked by an outdoor room.
- A second, narrow passage links the south-east and north-west corners.

#### LA SURFACE VILLE

- Un surface minérale avec une découpe circulaire qui laisse surgir la prairie.
- La surface est revêtue en pavage de granit clair correspondant aux surfaces de Vieux Montréal.

#### THE CITY SURFACE

- A mineral surface with a circular opening that allows the prairie to grow through.
- The clear grey granite of the square harmonises with the sidewalks and public spaces of Old Montreal.

#### LA PRAIRIE ET LE MOULIN

- Un rappel du paysage d'origine et de l'état naturel du site : une prairie composée de graminées et d'arbustes.
- Les vestiges souterrains d'un moulin du 17<sup>ème</sup> siècle sont marqués sur la surface du square.

#### THE PRAIRIE AND THE WINDMILL

- The original landscape and natural state of the site are recalled: an open prairie of wild grasses and low shrubs.
- The buried vestiges of a seventeenth-century windmill are marked on the surface of the square.
